Sept 2017

WELCOME TO STEYNING GRAMMAR SCHOOL SIXTH FORM COLLEGE Your Choice at 16+

As a Year 11 student you will soon be making a major decision about your future. Friends, parents/carers, teachers and tutors can all help by discussing the options open to you but the best decision will be the one which you make yourself.

At sixteen you are on the threshold of what are likely to be some of the most exciting, enjoyable and challenging years of your life. You will be increasingly aware of the many opportunities which are open to you as you become an adult in a rapidly changing world. If you choose to come to Steyning Grammar School Sixth Form College, we will do everything within our power to help you to achieve the self-confidence, social awareness, skills and qualifications which will serve you well in the years to come whatever the future might hold for you.

We will respect you as an individual and encourage you to make your own decisions, not least when we discuss with you during the Spring Term before you join us which subjects best suit your particular abilities, enthusiasms and needs. You will need to use the information from your subject staff together with your trial exam results and GCSE or equivalent grade predictions to guide you in your decision making. In January you will have a coursing discussion with a member of the College to consider your progression pathway. Whatever your choice of subjects, you will participate in a Level 3 curriculum which will enable you to enjoy greater breadth in your studies with a choice of over 30 subjects, BTEC National, and A Levels.

Please come to our Information Evening on Tuesday 26th September when you will receive the Prospectus and Application Form. You will also have the opportunity on Tuesday 17th October to visit subject stands where you will be able to talk to staff and students about your course choices. We look forward to being able to introduce the Steyning Grammar School Sixth Form College to you. We hope you will like the Sixth Form College's blend of warmth and friendliness, opportunity and challenge, quality and achievement.

Please see over for subjects provisionally on offer 2017/18.

Further details about each subject are available to you on the school website www.sgs.uk.net or on request from the School. More details are given in the Prospectus and the Course Directory Prospectus.

The subject specifications for 2018 are also available on the Exam Board Websites:

AQA: www.aqa.org.uk Edexcel: www.edexcel.org.uk OCR: www.ocr.org.uk

It is hoped that all courses detailed in this blocking will be available to students. However, a final decision cannot be reached until we have a strong indication of the numbers opting for subjects with a small up-take. We can only allow classes to run if they are of a viable size.
