

Using calculators in exams

Candidates may use a calculator in an examination unless prohibited by the awarding body's specification.

The instructions on the question paper will say whether calculators are not allowed or if they are expected to be used in the examination. If the instructions do not include either of these statements, calculators are treated as standard equipment and may be used by candidates.

Where the use of a calculator is allowed, candidates are responsible for making sure that their calculators meet the awarding bodies' regulations.
